WINZ

If you're on a low income or benefit, WINZmay be able to help you pay for immediate and essential dental treatment such as fillings , infection treatment,and extraction. You can apply for up to $1,000 a year (any 52-week period), to help with immediate and essential dental treatment. You don't have to pay this back. You don't have to be on a benefit to qualify.

How to apply:

Your dentist needs to complete a Dental Treatment information form. They will already have this form and will fill it in when they examine you. Upload the form on MyMSD or drop it off to a service Centre. If your application is approved, WINZ will load the money onto your Work and Income Payment Card. If you don't already have a Payment Card, you can pick one up from a service centre. You'll pay the dentist with your Payment Card (like an Eftpos card). In some cases, we may pay it directly to the dentist or health agency. You have 7 working days to pay your dentist or health agency before it expires.

ACC

ACC may be able to cover dental injuries caused by accidents, sports injuries, or as a result of medical or dental treatment. Your Dentist can help you fill in the form.
